

Hi! we are the students of class 5 B of the Primary School "Fattibello" of Comacchio. We are 22 students: 13 boys and 9 girls.

Comacchio is a beautiful town at the mouth of the Po river on the coast of the Adriatic sea. The name comes from the latin word "comeaclum" that means "small boat" or "small wave".

There are many interesting monuments in the town center: Trepponti Bridge, Saint Cassiano Cathedral and the Clock Tower. Around the square you can find the city hall, a newsagent, a shoe shop, a clothes shop and a pharmacy.

Our school is in the town center, next to a supermarket. Behind our school there is also a nursery school.

When the weather is nice, in the lagoon around the town, you can see flamingos and other rare birds, but our typical fish is the eel.

What about you?

Best wishes

SOME PICTURES OF OUR TOWN AND LAGOON

BUT WE HAVE ALSO SOME POLLUTION PROBLEMS....

**THAT'S WHY WE WANT TO BE
ACTIVISTS
AND TO WORK TO REACH THE
SUSTAINABLE GLOBAL GOALS**

Global goal n. 4

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

4 QUALITY EDUCATION

Education is the most powerful weapon we can use to change the world.

Education

WE CAN:

1. Donate used books
2. Start a collection of school supplies
3. work in groups to help each other
4. fight bullying

Nicolò, Mattia, Noemi and Marco R.

POVERTY

1. Don't waste food.
2. Buy only what you need.
3. Share items we don't use.
4. use more sustainable things.
5. Eliminate war.
6. Have peace in the world.
7. build house for poor people.
8. No child exploitation.

Our planet has sufficient clean water to reach this objective but because of many reasons every year millions of people die of diseases because of low quality water or because of bad hygienic services

Most of water in houses goes wasted like this: 30% because of the toilet being flushed, 41% for personal hygiene, 7% to drink or cook, 22% for other uses.

THE WATER IS A GIFT, DON'T WASTE IT

6 CLEAN WATER AND SANITATION

WHAT CAN WE CAN DO

- Eat less meat because for 1kg they use thousand liters of water.
- eat more vegetables and less meat
- Close the tap when you brush your teeth
- do not throw toxic chemicals or medicines in the toilet
- Reuse the cooking water

Linda, Alex, Renato and Alessandro

CHANGE THE SYSTEM , DON'T CHANGE THE CLIMATE

13 CLIMATE
ACTION

WHAT IS CLIMATE CHANGE?

It is the change in climate, global warming or cooling.

CAUSES:

combustion of gases, oil petrol, drought, pollution...

EFFECTS:

melting glaciers, rising seas, increased rain, changes in some habitats, extinction of some animal and poverty...

HOW MUCH TIME DO WE HAVE?

It will be more difficult after 2030

HOW TO REACH THE GOAL

- avoid cars, planes, ships... Better using a bike or feet.
- Reduce, reuse, recycle, buy at km 0
- Don't waste energy
- Say no to deforestation but plant trees

There is NO planet B

Andrea, Matilda, Sara, Antonio

WE MUST SAVE THE WORLD. HOW CAN WE DO IT ?????

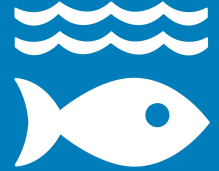

You might think that a plastic bag flying around town isn't a big deal. You might think that an object thrown away disappears, but it is not true: it is there even if you cannot see it, and perhaps it may harm some other inhabitant of the Earth, for example an animal. Therefore we must not pollute but we must think about what surrounds us.

- To save the planet we can:
- clean up parks and beaches
 - recycle
 - take part in reforestation projects (for example, the Treedom project where you can help the Earth by planting a tree)
 - plant trees
 - spread the word about what is happening to the planet

*Giacomo,
Lorenzo, Marco
B. and Luca*

What can we do to not pollute the oceans?

14 LIFE
BELOW WATER

We can:

1. Clean up the beach. If you find trash on the sand, take it and put it into the bins
2. Reduce plastic using bottles of glass or containers of recyclable paper.
3. Share to the World Ocean Journey on June 8th.
4. Support associations as “4ocean”
5. If you find enclosures on the sand don't step on them: there are tortoise of egg .
7. Change our habit of purchase, for example buy “a plug” drink and use cloth bags for the shopping.
